INTRODUCTION

Ending the Cycle of Violence is a twelve week youth violence prevention program that includes a six video series. The accompanying curriculum that addresses the realities of violence- its' causes and ripple effects; consequences of choices; the healing power of forgiveness; and the power each of us has to stop the cycle of violence.

The series was inspired by the real-life story of Tariq Khamisa, a 20-year old college student who was shot and killed in 1995 while delivering pizzas in San Diego, California. His assailant was a 14-year old named Tony Hicks. Tony pled guilty and was the first juvenile in California to be sentenced as an adult. He is serving a sentence of 25 years-to life in an adult maximum-security prison. What makes this story so unusual is the reaction of Tariq's and Tony's families. Tariq's father, Azim Khamisa, saw "victims on both sides of the gun"; he had lost his son forever, and Tony, a teenager, was now lost to the prison system, possibly for the rest of his life. Mr. Khamisa reached out in the spirit of forgiveness to Tony's grandfather and guardian Ples Felix. Together they started a foundation in order to talk with young people about the consequences of choices, the realities of violence, and the healing power of forgiveness to break the cycle of violence. TKF (Tariq Khamisa Foundation) continues its mission today of "*Empowering Kids, Saving Lives and Teaching Peace*" through community-based youth violence prevention programs for middle and high school students throughout San Diego County.

Ending the Cycle of Violence provides a comprehensive, in-depth understanding of the realities of youth violence and the principles of forgiveness, beginning with the story of Tariq Khamisa's death, Tony Hicks's incarceration, and the path to forgiveness taken by Azim Khamisa and Ples Felix. Branching out from this central story on the first video are 5 additional videos, each of which explores one of the key messages of TKF's violence prevention work. Each message is elucidated by aspects of the TKF story and complemented by other examples from the community, which focus on the experience of youth and young adult role models. The series communicates the contrasting realities of violence and nonviolence, revenge and forgiveness.

FACILITATING GUIDE

This section will guide you in the process of facilitating the Ending the Cycle of Violence (ECV) Program. ECV deals with highly charged and potentially unsettling material. Before presenting these lessons to your students, it is strongly recommended that you preview the activities in order to familiarize yourself with their content.

ECV is designed for use by TKF Program Coordinators, and professionals working with middle and high school age students. This program is appropriate for in-class facilitation, after school programs and pull-out groups.

It's important to establish an environment of trust and security, it is important to establish rules of confidentiality with the group; what is said in the group, should stay in the group. Students should clearly understand your expectation that privacy will be protected. We recommend that you clearly communicate your obligations in regards to confidentiality and reporting requirements. This is important to establish up front so students understand what you are required to report and do not feel "deceived" if an issue arises later in the program that you are mandated to report.

As you review the material presented in this guide, you may find it necessary to make changes, additions, or deletions to meet the specific needs of your students. ECV is a 12 week session program, facilitated once a week for an hour. We recommend doing at least 2-3 activities per session to help the students process the information. In the detailed table of contents, we have placed an asterisk by the recommended activities.

On the first and last session it is a **requirement** that before you start the session to have students fill out a Pre & Post-Questionnaire. On each session have the students sign in their full name on the attendance sheet. Each session will open up with a check-in, asking the students how are they doing, what has happened to them since last week and continuing with a review of the material covered in the last session.

In this guide you will find the 12 sessions with topics relating to what youth may experience in their lives. Each session includes an activity outline; consisting of materials needed, suggested questions for each topic, discussion time and debriefing. It is important to allow the students to share their comments, thoughts, and opinions in each session. More important is to debrief the topics with the students before closing.

“A Gangster’s Prayer”

Heavenly father hear me tonight.
I need so much guidance to live my life right.
Sometimes the pressure is so hard to bare.
I often wonder if anyone cares.
Heavenly father forgive my sins.
I want to change, but where do I begin?
Give me strength to resist the wild life I desire so much.
Help me get away from nightly gunfire.
Please God bless my family whose eye silently plead for me not to go out as
they watch me leave.
And bless my mother who cries every night worrying if I’ll be killed in yet
another gang fight.
Heavenly father, please hear my prayers, Please let me know that you are
listening up there.
When will it all end? What’s it all for? To prove I’m down...
I’m hard core!!!
Sometimes I even wonder how will I die, by a bullet wound or a knife in my
side.
Heavenly father, please hear me tonight.
Give me the strength to live my life right.
Please show me the way, show me the light.
Help give my heart peace, so I don’t have to fight.
Thank you for your forgiveness and for still being there.
Most of all, thank you for listening to this gangster’s prayer.

“I Remembered What You Said...”

I went to a party, Mom, I remembered what you said.
You told me not to drink, Mom, so I drank soda instead.
I really felt proud inside, Mom, the way you said I would.
I didn't drink, Mom, even though the others said I should.
I Know I did right, Mom, I know you are always right.
Now the party is finally ending, Mom, as everyone is driving out sight.
As I got into my car, Mom, I knew I'd get home in one piece.
Because of the way you raised me, so responsible and sweet.
I started to drive away, Mom, but as I pulled out into the road, the other car didn't see me,
Mom, and hit me like a load.
As I lay there on the pavement Mom, I hear the policeman say, the other guy is drunk,
Mom, and now am the one to pay.
I'm lying here dying, Mom... I wish you'd get here soon.
How could this happen to me, Mom? My life just burst like a balloon.
There is blood all around me, Mom, and most of it is mine.
I just wanted to tell you, Mom, I swear I didn't drink.
It was the others, Mom. The others didn't think.
He was probably at the same party as I.
The only difference is, he drank and I will die.
Why do people drink, Mom? It can ruin your whole life.
I'm feeling sharp pains now. Pains just like a knife.
The guy who hit me is walking, Mom, and I don't think it's fair.
I'm lying here dying and all he can do is stare.
Tell my brother not to cry, Mom. Tell daddy to be brave.
And when I go to heaven, Mom, put "Daddy's Girl" on my grave.
Someone should have told him, Mom, not to drink and drive.
If only they had told him, Mom, I would still be alive.
My breath is getting shorter, Mom. I'm becoming very scared.
Please don't cry for me Mom. When I needed you, you were always there.
I have one last question, Mom, before I say goodbye.
I didn't drink and drive, so why am I the one to die?

Session 5: LAWS

Activity 1

“Tony’s Sentencing Speech”

Good Morning Judge.

On January 21st, 1995, I shot and killed Tariq Khamisa; a person I didn’t even know and who didn’t do anything to me. On April 11, 1996, I pled guilty to first-degree murder because I am guilty. I wanted to save the Khamisa family and my family from further pain. Through my grandfather I have learned about the Khamisa family and their only son, Tariq. I learned about the love they have for him. Through my grandfather and Mr. Reynolds [a Khamisa family friend who visited Tony in Juvenile Hall], they have tried to explain to me the compassion the Khamisa family has for me.

I have had a lot of problems in my life. Over the last year, while I have been in Juvenile Hall, I have thought about my problems. I wish I didn’t have the type of life I had. I wish I had a relationship with my father. I think about the warning that my grandfather gave me. I wonder why I didn’t listen and learn. Now I wish I had listened to my grandfather. At night, when am alone, I cry and beg God to let me out of here. I promise Him that I will be a better person; I won’t mess up. When I see my mom I want to hold her tight as I can and beg her, “Take me out of jail”!

However, I don’t want to use my problems as an excuse for my actions. I think I would have gone to jail sometime, but I honestly don’t think getting busted for a robbery or something like that would have changed me. I was too mad at everyone: my mom, my dad, my grandfather. When I first came to the Hall I was mad at the D.A. and the people at the Hall for keeping me here. Now, I’m just scared and mad at myself.

I’m alone at Juvenile hall. Even though the people at the Hall are pretty cool, I’m still alone. I often think about the night I shot Tariq, especially when I’m alone in my cell. When it’s dark and quiet, I wonder what it’s like to die. I wonder why I’m still alive. Sometimes, when I roll over in bed and I lay next to the cold wall, I feel as far away from everything as possible. I wonder if that’s what dying feels like. I still don’t know why I shot Tariq. I didn’t really want to hurt him or anyone else. I’m sorry. I’m sorry for killing Tariq and hurting his family. I’m sorry for the pain that I’ve caused for Tariq’s father, Mr. Khamisa. I pray to God every day that Mr. Khamisa will forgive me for what I have done, and for as long as I live I will continue to pray to God to give him strength to deal with his loss. My grandfather promised me that he will be Mr. Khamisa’s friend and help him in any way he can for the rest of his life. I am very sorry for what I have done. Thank you for giving the chance to speak.

Activity 2

“Facts on Proposition 21”

Summary

This measure makes various changes to laws specifically related to the treatment of juvenile offenders. It targets juveniles and adults who are gang-related offenders, and those who commit violent and serious crimes. The changes can be divided into six categories:

- 1. Prosecution of Juveniles in Adult Court:** Requires more juvenile offenders to be tried in adult court.
- 2. Juvenile Incarceration and Detention:** Requires that certain juvenile offenders be held in local or state correctional facilities.
- 3. Changes in Juvenile Probation:** Changes the type of probation available for juvenile offenders.
- 4. Juvenile Record Confidentiality and Criminal History:** Reduces confidentiality protections for juvenile offenders.
- 5. Gang Provisions:** Increases penalties for gang related crimes and requires convicted gang members to register with local law enforcement agencies.
- 6. Serious and Violent Felony Offenses:** Increases criminal penalties for certain serious and violent offenses.

Impact

Proposition 21 has been tied up in the courts since it was passed in March 2000, so its impact is just beginning to be felt. There has not yet been extensive research predicting the long-term effects of this legislation.

Session 5: LAWS

Activity 3

“Description - Restorative Justice”

Restorative Justice views crime as a wound that needs to be healed. Instead of just sentencing offenders to prison time or probation, Restorative Justice sentencing seeks to do the following three things:

Repair the Harm to Victims, Communities and Relationships

Identify where the harm was created and to whom (even if only to the defendant and his/her family). Identify ways that the offender can make amends to the victim, the community, and any relationship that may have been hurt by this act (i.e. the relationship between the offender and his parents, etc.)

Ensure Offender Accountability and Competency Development

Identify the level of remorse the defendant feels or expresses for his/her crime as well as skills that the defendant could develop to lead a more productive, positive life.

Increase Community Safety

Develop a sentence that addresses the true needs of the defendant and his/her family that will prevent re-offense and put the defendant on the “right track”.

Examples of restorative Justice sentencing options:

- Letters of apology- (to victim or assailants family)
- Community Service- (designed to the defendants crime)
- Counseling/Workshops- (Anger management, speak at trainings)
- No Punishment

** Restorative Justice Activity adapted from materials created by San Diego Teen Court, Inc. Used by permission.*

Session 5: LAWS

Activity 3

“Restorative Justice-Deliberation Sheet”

Before you begin to determine what the sentence for the defendant (offender) should be, take a few minutes and discuss the following:

- As a group, discuss the facts and circumstances of the case.
- Discuss briefly who was affected or harmed by the defendant’s actions and how they were affected or harmed.
- What has the defendant already done to make up for his/her actions or what does he/she still need to do?

Once you have discussed the questions above:

- Considering all of this information, what type of options should be included within this sentence to hold the defendant accountable for his/her actions, help him/her repair the harm a/he has caused, and help him/her learn and grow from this experience?
- Write beside each other you recommend why you feel this is an appropriate option to include in the sentence.

We, the jury, hereby recommend the following sentence:

Sentencing Option

Justification

Sabrina was mad and told her friend to tell Michelle that if she wanted to fight, she should tell her to her face. When school got out, Sabrina went to the parking lot to get a ride and Michelle started yelling names at her. Sabrina started to walk away, but Michelle started yelling names at her. Sabrina went over to Michelle and told her to stop talking badly about her. Michelle grabbed Sabrina by the hair and the two girls fell to the ground, punching and kicking at each other. - “How can you change those feelings”?
- “What feelings would you like to change them to”?

Session 7: VIOLENCE & the BRAIN Activity 3

“Forgiveness and your Brain”

All of our experiences create pathways in their brain. The more we think about that experience, the more that pathway is strengthened. This can happen with positive or negative memories.

The more we think about a negative event, the stronger the pathway become. These pathways can become so strong, that just by thinking about a bad memory we can trigger all the bad feelings and actually feel the same way we did as when it first happened! It’s like you’re experiencing the negative situation or event over and over again.

We can decide how we want to feel about something!

If we decided to replace the anger about an event with a calmer emotion, we can replace the bad memories and feelings with something new, but it takes practice!

Think back to a situation/incident where it caused you to have negative feelings. Fill in these emotions in this space:

Memory #1: _____

Now imagine how these emotions changed over time thanks to practicing forgiveness. Fill in the emotions that you have now or would like to have:

Feelings after Forgiveness: _____

Imagine the two spaces are like two neurons paths in the brain. The second one can replace the first one. The more we think about a bad event in a new light, the less impact it can have on us.

- Write on two separate index cards: *Do not participate with anyone other than your partner*. When asked, tell anyone (other than your partner) who wants to exchange candy, *I do not exchange hugs & kisses with anyone other than my partner*. Ask each participant to pull the card out of his/her bag and follow the instructions on it (if there are any) and to keep secret any instructions on his/her card.
3. Tell the participants that they are to exchange candy and that they should write on their index cards the name of everyone with whom they exchange candy.
4. Give participants about five minutes to exchange candy and to write down names. Then have everyone return to his/her seat. *Find out who got the most signatures.*
5. Ask the one person whose bag has the (*) on the bottom to stand up. Explain that, this was the person who started out with Almond Kisses and that, for the purpose of this exercise, the Almond Kisses represent STD/HIV.
6. Then ask anyone who has an Almond Kiss in his/her bag to stand up. Explain that, because they exchange Hugs & Kisses for Almond Kisses, they too, are infected with STD’s/HIV
7. Ask everyone who is still seated to check their index cards for the name of anyone who is standing. Ask participants to stand up if they see the name of someone who is standing on their index card. Continue to ask students to stand up until everyone except three participants with the “M” and the “A” on the bottom of their bags.
8. Ask participants with a “C” on their cards to sit down. Explain that the ‘C’ means they always used condoms and protected themselves From STD’s/HIV. *They are not infected.*
9. Ask students with “IC” on their cards to sit down. Then ask them to stand right back up. Explain that “IC” means they used a condom each time but they used it incorrectly. They are infected with STD’S/HIV.
10. Explain to the participants that this activity contains an error because someone might have received an *Almond Kisses* (STD’S/HIV) and then given it away. You cannot give away HIV. Once you have it you share it with others but never get rid of it.

DISCUSSION:

To Forgive is really to remember.

That we are so much more than our mistakes that we are often more kind and caring. That accepting another’s flaws can help us accept our own.

To Forgive is to remember.

That the odds are pretty good that we might soon need to be forgiven ourselves.

That life sometimes gives us more than we can handle gracefully.

To Forgive is to remember that we have room in our hearts to Begin Again

and Again,

and Again.
